

Alessandro Maiocchi graduated in Industrial Chemistry in 1989 at the Science Faculty of the University of Milan. He is working in the Bracco Group companies since 25 years as a senior scientist covering several roles in the R&D organization. Currently he is the Director of the Global R&D at Bracco Imaging. From 2004-2010 he served as contract professor at the Dept. of Biotechnology and Molecular Sciences at the University of Varese in Italy. His current research activity is focused on the design and development of small and nanosized probes for molecular imaging applications in combination with therapies using

Magnetic Resonance, Ultrasound, Photoacoustic and Nuclear Imaging. He is member of several societies and author of more than 100 scientific publication on international journals and conference proceedings in the field of drug design, contrast agents characterization, pharmaceutical product development and imaging methods.
