

Franco Terlizzese is the Director-General for *Safety of mining and energy activities - National Mining Office for Hydrocarbons and Georesources (UNMIG)* at the Italian Ministry of Economic Development since 2009.

He graduated in mining engineering at the *University of Rome - La Sapienza*. He began his career as inspector for mines and quarries in the Carrara mining district (Tuscany) then he worked at UNMIG as technical manager, becoming later supervisor for development programs and drilling activities and chief engineer.

He was appointed member of the Board of *Acquirente Unico S.p.A.* (GSE Group), member of the Technical Committee of *UNI* (the Italian national body for technical standards) and member of the *International Commission on Hydrocarbon Exploration and Seismicity in the Emilia Region (ICHESE)*

He is the President of the *Commission for Hydrocarbons and Mineral Resources (CIRM)*, the Vice-President of the *Committee for safety of offshore operations* related to the exploration and exploitation of hydrocarbons.

He also serves as Chairman of the *Committee Fondo Bombole Metano* (the institutional body responsible for guaranteeing optimal safety conditions in the use of natural gas cylinder tanks for transportation).
