

About: Jason Killgore is the project leader of the “Scanning Probe Microscopy for Advanced Materials and Processes” project at the National Institute of Standards and Technology in Boulder, Colorado, USA. The project seeks to develop new SPM capabilities to meet the needs of industrial customers. Jason came to NIST as a National Research Council Fellow after completing his PhD in Chemical Engineering at the University of Washington. Jason has authored more than 30 peer reviewed articles and 2 book chapters. He has more than 15 years of SPM experience and 20 years of polymer science. He also serves as the associate editor for all SPM submissions to the Journal Ultramicroscopy.
