

Marie Skłodowska-Curie actions: Your Pathway to Innovative Research

Dr Radenka Krsmanović Whiffen, MSCA Individual Fellow, ENEA - Casaccia Research Centre, Italy

This presentation will offer young researchers an insight into Marie Skłodowska-Curie actions (MSCA) and their role in promoting innovative, transnational research in all areas of science in Europe. The presentation will deal with the types of MSCA opportunities available at all stages of research careers, provide advice on finding the best fit with your research interests, and highlight the advantages of being a MSCA Alumni.
