

Michele Iafisco is permanent researcher at Institute of Science and Technology for Ceramics (ISTEC) of the National Research Council (CNR) in Faenza (RA), Italy. He graduated in Chemistry in 2005 from the Alma Mater Studiorum, University of Bologna, Italy in 2005. From the same university he obtained the PhD degree in Chemical Science in April 2009. His research interests include biomaterials, biomineralization, nanotechnology, calcium phosphates, and bioceramics. He has authored more than 80 papers in international peer-reviewed journals, 15 book chapters and 4 patents and co-edited two books and two journal special issue. H-index=28, total citation: more than 2200, Source: Google Scholar (June 2018). In 2015 he was recipient of the prize "Ricercatamente 2014" for the best research activity of most promising young researcher "under 35" at the National Research Council of Italy in the field "Chemical Sciences and Materials Technology" and of the IUPAC-2015 Young Chemist Travel Award.
