

Nano Rome, 11-14 September
2018 Innovation
Conference & Exhibition

progettoDiventerò (I will become) is a multiyear initiative of the Bracco Foundation designed to follow talented young people in their training and professional iter, promoting innovating methods of consolidating the link between academic and working worlds.

BRACCO FOUNDATION @ NANOINNOVATION **NANOINNOVATION 2018 GOT TALENTS** **CALL FOR YOUNG RESEARCHER**

NanoInnovation 2018 invites young nanotechnology researchers to present their research activity in an ad-hoc session dedicated to them, supported by the **Bracco Foundation**. The International event, taking place in Rome the 11-14 of September, focuses on nanotechnologies and their integration with KETs in the following areas:

- Construction, Building & Restoration
- Electronics, Micro and Nanosystems
- Energy & Environment
- Food and Agriculture
- Innovative and Smart Textiles
- Nano-Bio Related Products
- Health & Nanomedicine
- Nano-Materials Based Innovation
- ICT & Nanoelectronics
- Nano-Materials Based Innovation
- Nanoscale Characterization and Measurements
- Safety and Social Impacts
- Smart Manufacturing
- Transport, Space & Aeronautics

If you are a young researcher (<35 years old) with research activity in the above mentioned areas, NanoInnovation 2018 offers you the opportunity to present your work. The Scientific Committee of the Conference will select the best proposals and the authors will illustrate their activity to a vast, high-profiled audience composed of industry representatives, scientists, experts, investors, entrepreneurs.

To submit your proposal you must use the form available in the Conference web site (www.nanoinnovation.eu) and send it by the **15th of July 2018** to address indicated in the application form.

Should your proposal be selected you will be invited to make your presentation (10-15 minutes) in a dedicated special session within the Conference. The participation is free of charge. The Conference will pay your travel cost.
