

Local Science-to-Business needs in the nanotechnology ecosystem

Monika Goszcz

Foundation of Nanoscience and Nanotechnology Support NANONET

Silesian Nano Cluster

The Silesian Nano Cluster was established due to the identification and readiness to answer the needs of nanotechnology sector both in science and industry in Silesia, Poland. The experience gained in solving problems in cooperation between those two, created a valuable think tank. Our conclusions might be extrapolated in order to provide diverse environment for sustainable growth in every stage of development of nanotechnology ecosystems.
