

Emanuela Tamburri, PhD in Chemical Sciences, is a Research Fellow at the Dept. of Chemical Sciences and Technologies and an Adjunct Professor for the degree programs in Materials Science at the University of Rome Tor Vergata. She also works as Lab Manager at NanoShare Srl.

Her research focuses on the design and development of hybrid nanocomposites for several technological fields ranging from electronics and optoelectronics, energetics, to sensors. ET is engaged as reviewer of several international research agencies and scientific journals. She is co-author of 2 patents, 2 book chapters and more than 110 publications on national and international peer-reviewed journals.
