

Salvatore Petralia received the Ph.D. degree from the University of Catania, in 2003, under the supervision of Prof. S. Sortino. He was a Visiting Researcher with Instituto de Tecnologia Chimica Valencia in 2000. During the Postdoctoral period he developed new photoactive materials for molecular electronic, sensing, and medical applications. Since 2004, he has been with STMicroelectronics, covering several R&D positions in the field of surface chemistry, molecular diagnostics, and microfluidic system. He is the Author of about 80 papers published in international journals and more than 100 conference contributions. He is the coinventor of 7 patents in that domain.
